

BIOMAT THERAPY FOR CANCER

The BioMat uses state-of-the-art far infrared and negative ion technology combined with the healing power of amethyst crystals to regenerate your cells by directing your own DNA to correct itself. The mat's unique therapeutic features help cancer patients and cancer survivors to restore and maintain optimal health, relieve pain, relax the mind/body and revive the spirit. The BioMat is FDA cleared (FDA Medical Device #2954299) and UL approved.

To receive these benefits, all you have to do is lie on the BioMat, either in the comfort of your own home or at a wellness professional's office.

The length of time on the BioMat and the temperature setting can vary from a high red setting (149–158°F) for a short power session of 30 minutes to one of the four gold settings (113–140°F) for a longer period of 1 to 2 hours. You can also sleep on the mat all night at the lowest gold setting. Since the lowest setting is 113°F, your body will be heated internally to a point where the cancer cells will be damaged or killed. For best results, use the BioMat daily. Its benefits are cumulative.

The BioMat is complemented by the Alkal-Life Water Ionizer, a highly advanced water purification and ionizer system (FDA cleared) that balances the body's pH level.

CANCER

A great deal of medical research has been done about the cause of cancer, and many articles about this are easily available on the Internet. The following information does not constitute medical advice.

Each cell in our body takes in oxygen, nutrients and glucose and discharges toxins. These cells are protected by the immune system, but as the body becomes acidic, the immune system becomes overpowered by the toxins. Thus, the cell loses its capacity to take in oxygen, thereby creating a fertile environment for cancer to grow. When the body becomes more alkaline and the pH level reaches 8.4, these malignant cells die off.

Cancer cells, being anaerobic, cannot live in oxygen. They can only thrive in very low oxygen conditions. When the pH of the body is maintained in a balanced alkaline state, the immune system of the body stays strong. This leads to the cells getting enough oxygen and discarding toxic waste. Cancer will neither thrive nor take birth under such circumstances.

Lastly, cancer cells cannot survive when the body temperature rises above 107-113°F. The medical treatment hyperthermia involves raising the temperature of the body area surrounding a malignant tumor, or in many cases, the whole body itself, to levels of heat and for periods of time lethal to the cancerous tissue but not injurious to other cells. At Klinik St. Georg in Germany, the standard protocol for cancer patients is a week of detoxification and the strengthening of the immune system with diet and nutritional supplements, followed by two weeks of localized hyperthermia treatment and low-dose chemotherapy. The clinic has had excellent results with this program.

HOW CAN THE BIOMAT HELP?

The BioMat offers many benefits. Those related to cancer include:

1. **Damages and kills cancer and viral cells** – The BioMat heats body tissue above 113°F thereby damaging and killing cancer and viral cells that cannot survive above that temperature. At the same time, it strengthens surrounding healthy cells. Medical data suggests that 95% of ordinary malignant tumors die at a temperature above 110°F. According to the National Cancer Institute, “Research has shown that high temperatures can damage and kill cancer cells, usually with minimal injury to normal tissues. By killing cancer cells and damaging proteins and structures within cells, hyperthermia may shrink tumors.” When the BioMat is used with other forms of cancer therapy, such as chemotherapy and radiation therapy, it helps the body to recover more quickly, often with little or no loss of hair.
2. **Alkalizes and purifies blood, balancing your pH** – When the body receives the negative ions released by the BioMat, the calcium and sodium circulating in the body are ionized. This changes the blood pH into an alkaline state that is essential for optimal health. The negative ions also increase the flow of oxygen to the brain. Scientific research has stated that cancer cells cannot survive in an alkaline system.
3. **Removes waste and toxins from your body** – Far infrared helps to detoxify the body. Increased blood circulation stimulates the sweat glands and increased water intake enhances elimination by various body systems. Built-up toxins and waste are released from the cells, including an accumulation of potentially carcinogenic heavy metals, alcohol, nicotine, sodium, sulfuric acid, cholesterol and uric acid. Toxins are thought to cause or exacerbate such health issues as cancer.
4. **Revitalizes and oxygenates cells** - When the amount of negative ions in the blood increases, there is an increase in inter-cellular communication. Cellular metabolism is facilitated and as a result there is an increase in cellular nutrient and oxygen uptake and cellular hydration. In addition, cellular waste materials are more efficiently excreted. With the increase in cellular metabolism, optimal cell function is rapidly revived.
5. **Accelerates healing after injury or surgery** – With the BioMat, your circulatory system becomes more clear and open, and you are able to absorb and integrate vitamins, medicine, body work, etc. more fully into your body. The result is that your body is able to heal 57% faster after injury or surgery. Studies published in the journal *Nature* in 2005 confirmed that our cells work like tiny chemical batteries. Wounds and surgery short-circuit them, and a jolt of voltage stimulates their healing.
6. **Improves blood circulation, strengthens cardiovascular system** – Far infrared rays (FIR) raise the body temperature thereby warming the blood and expanding the blood vessels. This results in increased peripheral blood flow and volume which improves circulation and heart function.

7. **Activates metabolism** – FIR activates the metabolic process of assimilation and elimination of substances by the body.
8. **Reduces stress and improves sleep** – It is estimated that 75% of all diseases are caused by stress. FIR and negative ion treatment lowers your brain waves to the deepest Delta level and induces a state of relaxation, similar to meditation, thereby enabling you to reduce stress and to rest quietly and deeply. All profound healing and restorative functions of the body are accessed in this state. It also promotes a good night's sleep so that your body and mind feel refreshed the next day.
9. **Boosts your immune system** – FIR's deep heat raises the core body temperature, inducing an artificial and healthy fever that stimulates your body's natural mechanism to fight off disease, including disease mutations such as Bird Flu, Lyme Disease and AIDS. Combined with the detoxification of harmful toxins and waste products, overall health and resistance to disease is increased.
10. **Improves lymph flow and endocrine system** – FIR stimulates the lymphatic system, improving its circulation and reducing swelling and inflammation.
11. **Boosts energy and vitality.**
12. **Promotes light-heartedness and alleviates depression.**
13. **Enhances all healing modalities** – The BioMat enables conventional medicine and other healing modalities to be more effective and penetrate more deeply, thereby accelerating the healing process.

PRODUCT INFORMATION

The BioMat is a “pad” that lies on top of a massage table, chair or home mattress. It converts electricity through a computerized control panel into far infrared rays (FIR), nature's invisible light. FIR was discovered by NASA to be the safest, most beneficial light wave. FIR reduces swelling, increases blood flow and has been shown to destroy cancer and viral cells without harming surrounding healthy cells. It stimulates healing and the regeneration of nerves and muscle tissue layers.

The BioMat's unique construction contains 17 layers, including several of Japanese Kurare Carbon Ceramic Fabric (Patent 1386560) which generates far infrared rays (6-12 micron) that can be easily absorbed by the human body. The amethyst crystal layer at the top of the mat increases the surface area, boosting the FIR 200%, which is why the FIR can penetrate the body 6"-8", reaching the interior organs as well as the skin's surface.

The BioMat's remote computer technology does not use electrical coils to heat the mat; therefore, there are no harmful electromagnetic fields around your body. The BioMat's electrical use is 60% less than other electric pads; only 1¢/hour!

The BioMat comes in the following convenient sizes to fit your individual needs: professional which fits a massage table; single, queen, king which fits your bed; and, mini which fits a chair (it is also a great size for small children and pets). Unlike the single, queen and king size mats, its amethyst channels run from edge to edge. All mats come with a washable 100% cotton padded cover that has antibacterial, antimicrobial and antifungal properties. Plus, the Professional and Mini BioMats come with easily portable black carrying cases.

Professional BioMat with BioMat Pillow and Controller

The BioMat and the BioMat Pillow work together for optimum therapeutic benefits. The foam pillow features an ergonomic form that provides important neck stabilization. Channels of amethyst and tourmaline crystals carry BioMat energetics deep into the cerebral spinal column and brainstem while simultaneously keeping the head cool, allowing the body to receive higher temperatures while lying on the mat. This is an important Ayurvedic health concept. The zippered case can be removed and used as a body wrap for chest, stomach, arms, and legs to assist in the relief of many ailments.

The BioMat is complemented by the Alkal-Life Water Ionizer.

ALKAL-LIFE WATER IONIZER

The Alkal-Life 7000sL is the first water ionizer to provide a computerized system that monitors all types of incoming tap water and automatically calibrates to provide the highest quality ionized alkaline water. Its state-of-the-art carbon activated system uses a silver nano filter and the highest grade titanium. The ionized hydrogen water contains many Hydroxyl ions that remove free radicals which are unstable oxygen molecules that cause damage and disease to the body. Once the Hydroxyl ions and free radicals have cancelled each other, the body is supplied with extra oxygen and energy. The Alkal-Life 7000sL does not add any chemicals or minerals to the water. It only splits the minerals already in the water to the alkaline side and the acidic side.

WHY DRINK IONIZED WATER?

1. **Ionized water is a powerful liquid anti-oxidant** that is easily absorbed into the body. The water also neutralizes free radicals. Free radical damage causes us to age faster and is largely responsible for many diseases, including cancer.
2. **Ionized water is alkaline water**, which maintains and balances the body's pH. A proper body pH creates an environment which deters bacteria, inflammation, and disease.

3. **The molecular structure is smaller** than that of regular tap water. Tap water clusters contain 10 to 13 molecules opposed to the 5 to 6 molecules of ionized water. This small size allows more hydration and better detoxification.

COST

Professional BioMat	\$ 1,450; \$100 discount for wellness professionals
BioMat Pillow	<u>250</u>
Professional BioMat Set	\$1,700

Other BioMat Sizes:

Mini	\$ 550
Single	2,400
Queen	3,200
King	3,840

Alkal-Life 7000sL \$ **1,500** to purchase, or you can lease-to-own for **\$299.95 down and \$39.95/mo. for 30 months**

Shipping and handling not included. Tax for Hawaii residents only.
